# Are you ready to get started today?

If you know how you want to integrate ML on AWS into your product roadmap or technology infrastructure, we want to help! Email us today.

---

- **EMAIL:** [EdTechTeam@amazon.com](mailto:EdTechTeam@amazon.com)
- **SUBJECT:** ML on AWS for EDU Pilot Idea
- **CONTENT:** Describe your proposed use of ML on AWS services in your EdTech or institution, and we'll connect you with the right team to kick start your project!

# Our mission

**Put Machine Learning in the hands  
of every developer and data scientist**

**Application  
Services**

API-driven services: Vision & Language Services, Conversational Chatbots

**Platform  
Services**

Deploy machine learning models with high-performance machine learning algorithms, broad framework support, and one-click training, tuning, and inference.

**Frameworks  
&  
Infrastructure**

Develop sophisticated models with any framework, create managed, auto-scaling clusters of GPUs for large scale training, or run inference on trained models.

**Application  
Services**

API-driven services: Vision & Language Services, Conversational Chatbots

**Platform  
Services**

Deploy machine learning models with high-performance machine learning algorithms, broad framework support, and one-click training, tuning, and inference.

**Frameworks  
&  
Infrastructure**

Develop sophisticated models with any framework, create managed, auto-scaling clusters of GPUs for large scale training, or run inference on trained models.

# Amazon Rekognition: image content

Amazon  
Rekognition

- Object and scene detection
- Facial analysis
- Face comparison
- Celebrity recognition
- Image moderation
- Text in image

FREE TIER

# Amazon Rekognition Video: video content

# Amazon Polly: text to speech

“Hejsan! Jag heter Astrid och läser upp det som skrivs här.”

Amazon Polly

FREE TIER

# Amazon Translate

Real-time translation

Powered by deep  
learning

12 Language pairs  
(6 more languages  
to come)

Language detection

FREE TIER

# Amazon Transcribe: speech to text

**Available  
in preview  
today**

Multiple  
languages

Intelligent  
punctuation and  
formatting

Timestamp  
generation

Support for  
telephony audio

Recognize  
multiple  
speakers

Custom  
vocabulary

FREE TIER

# Amazon Comprehend: NLP

Discover valuable insights from text

**Entities**

**Key Phrases**

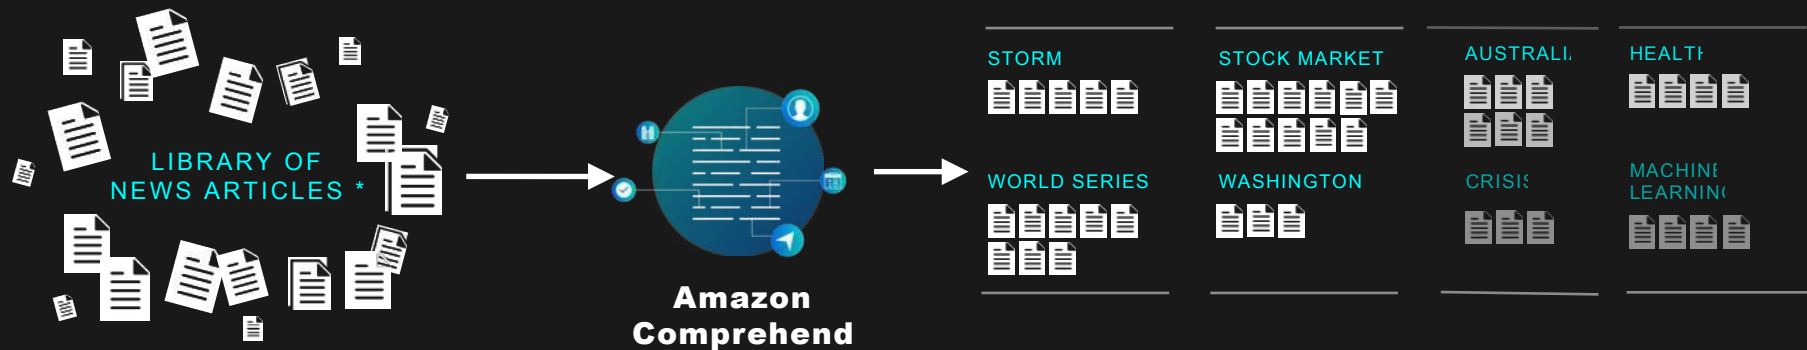

**Language**

**Sentiment**

Conversational Interfaces

FREE TIER

## BookHotel

### Intents

A particular goal that the user wants to achieve

### Utterances

Spoken or typed phrases that invoke your intent

### Slots

Data the user must provide to fulfill the intent

### Prompts

Questions that ask the user to input data

### Fulfillment

The business logic required to fulfill the user's intent

I'd like to book a hotel.

Sure, which city?

New York City

What date do you check in?

...

November 30th.

Are you sure you want to book the hotel in New York City?

Yes.

Thank you. The reservation went through successfully.

# DEMO: Application Services

**Application  
Services**

API-driven services: Vision & Language Services, Conversational Chatbots

**Platform  
Services**

Deploy machine learning models with high-performance machine learning algorithms, broad framework support, and one-click training, tuning, and inference.

**Frameworks  
&  
Infrastructure**

Develop sophisticated models with any framework, create managed, auto-scaling clusters of GPUs for large scale training, or run inference on trained models.

# Amazon SageMaker

Build, train, and deploy machine learning models at scale

End-to-End  
Machine Learning  
Platform

Zero setup

Flexible Model  
Training

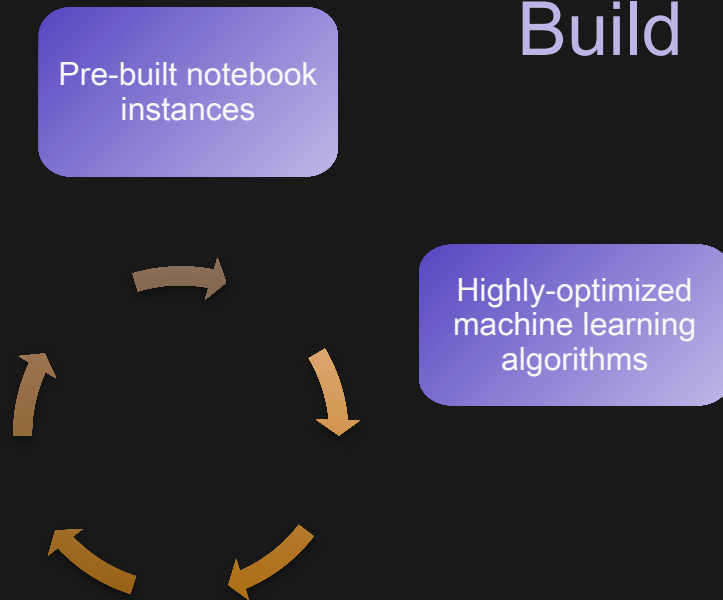

Pay by the second

# Amazon SageMaker

Build

# Amazon SageMaker

# Amazon SageMaker

# **DEMO: Amazon SageMaker**

**Application  
Services**

API-driven services: Vision & Language Services, Conversational Chatbots

**Platform  
Services**

Deploy machine learning models with high-performance machine learning algorithms, broad framework support, and one-click training, tuning, and inference.

**Frameworks  
&  
Infrastructure**

Develop sophisticated models with any framework, create managed, auto-scaling clusters of GPUs for large scale training, or run inference on trained models.

# Amazon EC2 P3 Instances

The fastest, most powerful GPU instances in the cloud

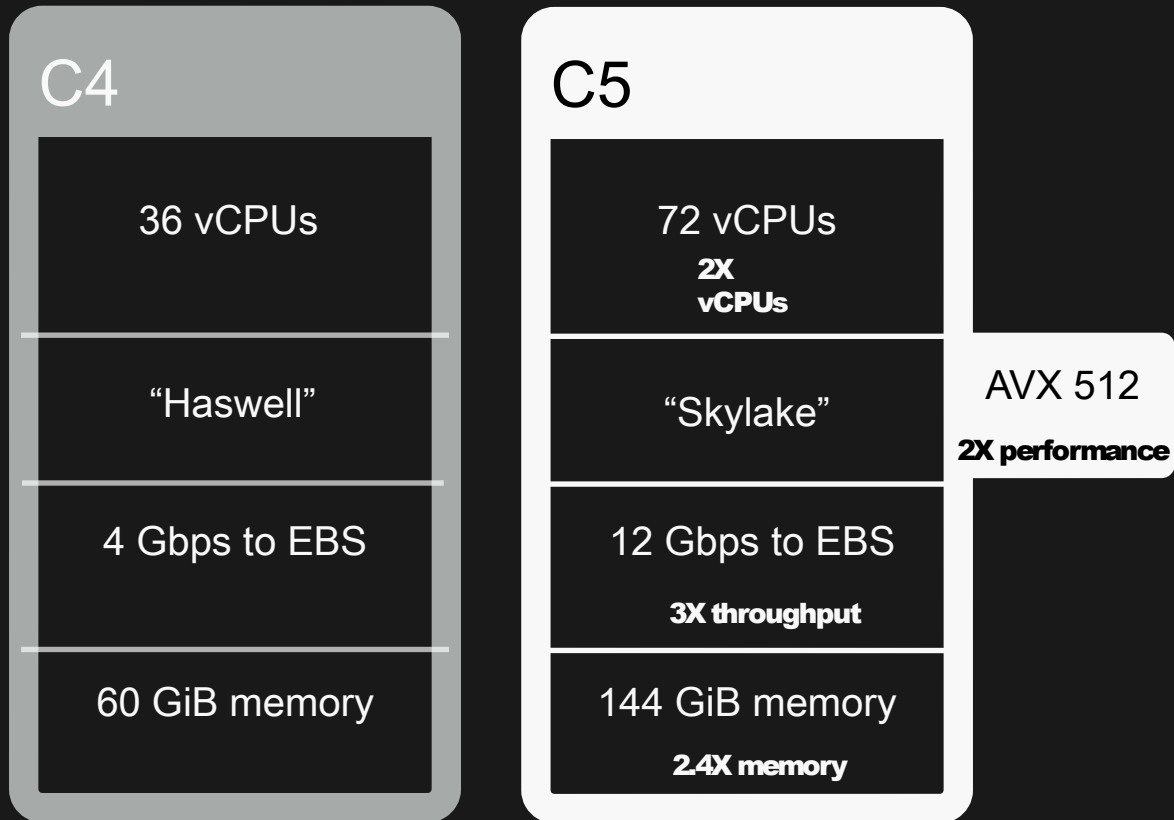

- Up to eight NVIDIA Tesla V100 GPUs
- 1 PetaFLOPs of computational performance
  - *14x better than P2*
- 300 GB/s GPU-to-GPU communication (NVLink)
  - *9X better than P2*
- 16GB GPU memory with 900 GB/sec peak GPU memory bandwidth

# Amazon EC2 C5 instances

C5: Next Generation  
Compute-Optimized  
Instances with  
Intel® Xeon® Scalable  
Processor

AWS Compute optimized  
instances support the new Intel®  
AVX-512 advanced instruction  
set, enabling you to more  
efficiently run vector processing  
workloads with single and  
double floating point precision,  
such as AI/machine learning or  
video processing.

# AWS Deep Learning AMI

- Easy-to-launch tutorials
- Hassle-free setup and configuration
- Pay only for what you use
- Accelerate your model training and deployment
- Support for popular deep learning frameworks

# AWS DeepLens

World's first deep learning enabled video camera for developers

---

A new way to learn

---

Custom built for deep learning

---

Broad Framework Support

---

Deploy models from Amazon SageMaker

---

Integrated with AWS

---

Full programmable with AWS Lambda

---

# Democratization of AI

## APPLICATION SERVICES

**Amazon  
Rekognition**

**Amazon  
Polly**

Amazon  
Lex

Amazon  
Comprehend

**Amazon  
Rekognition  
Video**

**Amazon  
Transcribe**

**Amazon  
Translate**

## PLATFORM SERVICES

Amazon SageMaker

**AWS DeepLens**

**Amazon EMR**

## FRAMEWORKS AND INTERFACES

**Deep  
Learning AMI**

Apache MXNet

Caffe2

CNTK

PyTorch

TensorFlow

Theano

Torch

Keras

Gluon
